

## COMMENTS OF COMMONWEALTH EDISON COMPANY

Commonwealth Edison Company (“ComEd”) submits these comments on the Illinois Power Agency’s (“IPA”) Draft Adjustable Block Program Community Solar Marketing Guidelines, Disclosure Form and Brochure (collectively, the “ABP Community Solar Marketing Guidelines and Forms”).

ComEd supports the efforts and commitment of the IPA and its program administrator to carry out the consumer protection provisions contained in Section 6.13 of the IPA’s Long Term Renewable Resources Procurement Plan (“LTRRPP”). ComEd agrees that requiring “clear and consistent information on the relationship between the end customer, the installer/developer, and the Approved Vendor is critical to ensuring that the fiscal risks and controls of [the Adjustable Block Program] are properly and prudently managed.” LTRRPP at 124. In its stakeholder presentation, the IPA outlined overarching goals of 1) “helping consumers think through the decision of whether subscribing to a community solar project is right for them” and 2) “codify sufficient consumer protections for potential subscribers.” *See Community Solar Marketing Guidelines and Materials Stakeholder Meeting Presentation* (Nov. 30, 2018) at 6-7. In order to make comparisons between providers and various energy sources, it is critical that customers receive standardized and transparent information in an easy to understand fashion. ComEd appreciates the IPA’s ongoing efforts to address stakeholder concerns, comments, and questions regarding this important consumer protection topic.
