Subject: Collateral Requirement

**Message Body:**

We would like to provide some feedback on the collateral requirement for participation in ABP. I would encourage you to allow the collateral to be withheld from the customers first SREC payment. I do so, because by making customers provide thousands of dollars up front, makes it look very suspicious and very confusing. Because this program has been delayed multiple times, we need to put the right foot forward. Especially, on the 10kW and under systems.
