RE: Nexamp Comments in Response to Community Solar Consumer Protection & Marketing Guidelines Draft Documents

Program Administrator:

Nexamp writes in enthusiastic support of the Joint Solar Parties Comments and Suggested Revisions to the Community Solar Disclosure Form, Program Brochure, and Marketing Guidelines.

Given the diverse and sometimes divergent viewpoints expressed by the industry in response to other Adjustable Block Program proposals, it should be noted that the industry is united in its concern over the proposed customer disclosure, customer brochure, and associated marketing guidelines.

Nexamp strongly supports the arguments put forth by the Joint Solar Parties. It is our hope that the Program Administrator and IPA will give careful consideration to how other emerging and mature community solar markets have ensured transparency and accountability without causing unnecessary confusion for customers or imposing undue administrative burdens on community solar providers.

Thank you for your consideration.

Respectfully submitted,
